PS **Post Studio** FOR LINKEDIN

Your best work never reaches LinkedIn. Now it does, in your voice.

Plan the week, write it like you, make it read human, and publish only what you approve.

SOUND FAMILIAR? → HERE IS WHAT CHANGES

Not enough time to post?
Great work ships. The post never gets written.

↓

1–7 posts
planned for your week at once
Pick topics, choose how many, then schedule them on a calendar. A worker posts on time.

Do your posts read like GPT?
Dashes, "delve", "game-changer" give it away.

↓

39→83/100
human score on one sample draft
Strips hidden characters, long dashes and AI words, then scores it. 70+ is ready.

Doesn't sound like you?
Generic posts with generic claims.

↓

3 easy steps
set up once, plan, approve
Your voice profile and your own proof drive the draft. Unknown facts become blanks, not guesses.

Afraid of a wrong or leaked fact?
One slip in public is hard to undo.

↓

0 posts
go live without a named approver
Blocks client names and blanks. Every number must match your profile, or you confirm it.

39→83 is one sample draft run through the humanizer. Your results will vary with your draft.

THREE GUIDED STEPS

1 Set up once
sign in, add your voice and who you write for

→

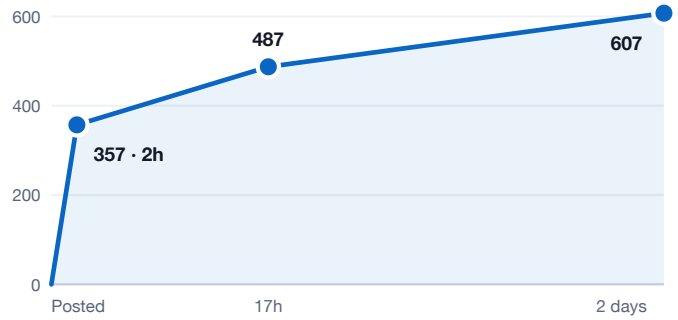
2 Plan and draft
pick topics, humanize, safety check

→

3 Approve and publish
your yes, then schedule and track

PROOF, NOT PROMISES

607 impressions in about 2 days



Real readings from the first post published with Post Studio. Results vary by post and audience.

2
safety checks: at approval and again right before posting

6
humanizer checks on every draft

70+
human score counts as ready

3,000
character guard before approval

21
hook formulas to start from

12
part rubric to score your profile out of 100

- ✓ Human approves every post
- ✓ Official LinkedIn API, no bots
- ✓ Keys stay on your machine
- ✓ Numbers checked against your proof
- ✓ Runs with your own Claude

Post more. Worry less.

Your voice, your facts, your approval. Every time.
